RE: Saturday, July 17th Construction

Dear Rochester Resident,

You are receiving this letter as the property you own or live in is on or will be impacted by construction work this Saturday as part of the current Oak Street Reconstruction Project.

Due to several days of rain, the Oak Street project has fallen behind schedule. After talking with our contractors and seeing that tomorrow's (Saturday) weather is forecasted to be sunny to partly cloudy, and to get the overall project back on schedule, I have authorized Saturday work from 8:30 a.m. until 4:00 p.m.

The City and our contractor (DiPonio) appreciate your understanding and cooperation as this project progresses. If you haven't already signed up for weekly updates, please send an email to: RSVP@rochestermi.org and put "Oak Street" in the subject line. Besides a few letters like this one, the City will also periodically send electronic updates, so email communication is preferred. However, the City has also created a web page to keep residents updated at: www.rochestermi.org/oak

Finally, if you have a special event or want the City or our contractor to be made aware of something, please reach out to me directly. My email is bwing@rochestermi.org or I can be contacted by calling (248) 651-5165, Monday through Friday, from 7:00 a.m. until 3:30 p.m.

Sincerely,

Blaine Wing

Blaine Wing
City Manager
