RE: Construction Scheduled for Mahaffy

Dear Rochester Resident,

The City of Rochester is planning a road reconstruction project on Mahaffy Avenue (from Lysander Street to Highland Avenue). The prep work is completed and the milling work will begin this Friday, weather permitting, with underground work starting on August 23rd. The project includes removal and replacement of asphalt pavement with new concrete curb and gutter. Additionally, the following work will be completed concurrently:

- Removal and replacement of sidewalks along both sides of the road
- Replacement of existing water main
- Update of the storm sewer system

Our engineering firm has surveyed the locations along this project and marked sprinkler heads to make sure that the sprinkler heads will be reinstalled at the same locations at the end of the project; however, if there are any changes since July, please let us know.

If you are interested in receiving weekly email updates on this project, please email rsvp@rochestermi.org and put the words "Mahaffy" in the subject line. Otherwise, you can check the dedicated webpage at www.rochestermi.org/mahaffy for the same updates.

If you have any questions, please email me at bwing@rochestermi.org or call (248) 651-5165, Monday through Friday, from 7:00 a.m. until 3:30 p.m.

Sincerely,

Blaine Wing
